

The "975 Monza" by Bad Boys Garage is the Best in Show of the 38th Biker Fest International

The Custom Bike Show, the most historic in Europe, also awards Mannaia, Mayerl Motorcycles and an e-boardtracker

In a **Biker Fest International** that in its **38th edition** offered an increasingly rich and varied program, the traditional **Custom Bike Show** - the only one in Europe that has been held continuously since 1987 - proved to be an irresistible magnet. The dozens of custom bikes on display in the covered area inside the Village attracted a crowd of enthusiasts. As the Italian final of the Italian Motorcycle Championship (IMC) and the only Italian stage of the **World and European Custom Bike Championships** organized by American Motorcycle Dealer (AMD), the BFI catwalk attracted the best talents, craftsmen and custom bike professionals from Italy and abroad.

This year in particular, the international vocation was strengthened by the partnership with the legendary **Sturgis Bike Week** and the presence of the **Twin Club MC of Norrtälje, Sweden**, which for exactly 50 editions, this year scheduled the 1st of June, has organized the eponymous Custom Bike Show, a prestigious chopper and old school showcase. The BFI has thus placed itself at the apex of the triangle that unites the benchmark custom and biker events between the United States and Northern and Southern Europe.

The Best in Show award of the **Italian Motorcycle Championship (IMC)** went to the Harley-Davidson Nightster "**975 Monza**" by Lorenzo Nisi, aka **Bad Boys Garage**. The customizer has created a masterpiece of modern craftsmanship and sportiness. For **the finals of the AMD-sponsored event**, the expert international judging panel selected the classic Harley-Davidson FX chopper built by Austria's **Mayerl Motorcycles**, the evocative single-cylinder Norton "La Mona" from Italy's **Mannaia Workshop**, and, in a bold and forward-thinking choice, the electric boardtracker "Murata" built by Belgium's **Ruben Mellaerts for RM Builds**.

New to BFI 2024 was the **Chicano Show**, dedicated to "viclas," the spectacular Mexican-style lowriders that don't skimp on chrome, flake paint and gold and silver leaf detailing. The most popular was the Harley-Davidson Softail Heritage from the Italian workshop **Rckroll-Chop**, already the cover star of the May issue of Bikers Life Magazine.

This is the complete list of winners and podium for each class.
